Introducion & Welcome

Dear friends,

The global Covid-19 pandemic led to several transformations in all sectors of activity and the safe return of motorsports is not indifferent to those changes. The Baja Portalegre 500 forced us to implement a series of preventive measures from the limitation of the number of people in several areas of the event, to the cancelation of the ceremonial start and the prise giving.

Despite all this, the competition remains the Baja Portalegre 500's trademark, which this year makes its comeback to the FIM Baja World Cup. A won bet which allows us to welcome the world's best baja riders. To these, and as usual, we add the FIA Cross

Country Bajas World Cup, as well as the national off-road championships for autos and bikes from FPAK and FMP, respectively. In any case, the Automóvel Club de Portugal's event will bring down the curtain on the season, therefore being decisive in the attribution of the titles. We would like to thank our sponsors for their support: BP Portugal, Municipality of Portalegre and Municipality of Ponte de Sor – as well as for the collaboration of the Municipalities of Abrantes, Alter do Chão, Crato, Fronteira, Gavião, Monforte, Nisa, and Sousel, and the Community Councils of Cabeço de Vide, Chança, Comenda, Monte da Pedra and Tolosa. Without them, it wouldn't be possible to organise this world-wide event which is so important for the region's economy and tourism.

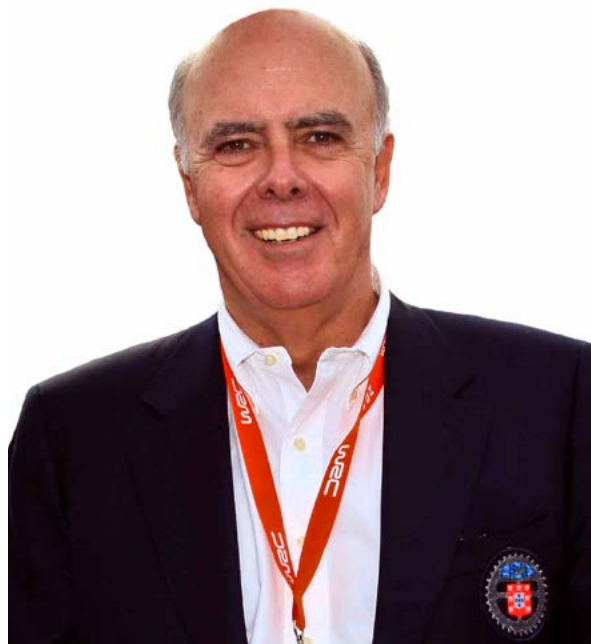

We also count on the collaboration of the National Guard (GNR), Police (PSP), the Fire Brigade of Portalegre District, as well as the support of Fonte Viva, Ibermedia, SNB, Valnor, Fençaça, Portuguese Hunters Federation and Rádio Portalegre.

We also appreciate the support of all the elements of the organisation and we owe a special thanks to the support of the owners who allow the race to cross their lands.

We hope that you will be able to join us for the Baja Portalegre 500.

Carlos Barbosa

Presidente of ACP

The Service Park is comprised by two main Service areas, one dedicated to Autos, right opposite to the Rally HQ main entrance, and another one dedicated to Bikes, closer to the main road.

Competitors will have at their disposal electric sockets, as well as water to service their vehicles. In the same way, all competitors will have several recycling points along the Service Park so they are able to properly dispose of their residues.

The refuelling area is located at the end of the Autos Service area, just before exiting the Paddock.

The Service Park also has a food court, right at the end of the Bikes Service area, by the Paddock's exit.

To allow both possibilities, the road book will include two different routes between TC2C and TC2D.

Competitors participating in Bikes, Quads and SSV's (non FIA class), may refuelling at the designated refuelling areas along the SS route, and in the Service Park. Refuelling must be done with an eco-friendly mat under the vehicle. It is not allowed to service the vehicle, or change tyres at the refuelling areas along the route.

Competitors participating in Autos should see Art. 10 of the 2020 FIA Cross-Country Rally Sporting Regulations.

Import of Vehicles and Spare Parts

The operation of Drones also might require TV rights authorisation from third parties, other than the event organiser.
